David Sandler, Chief Executive Officer, said, "I'm very pleased with our performance this quarter. In an environment that has seen some recent leveling in growth rates, we continued to invest in our future and gained further traction with our strategic initiatives, while delivering solid earnings."

Erik Gershwind, President and Chief Operating Officer, stated, "It's clear to us that the trend of consolidating spend within our industry is speeding up as customers are recognizing the value of differentiated supply chain solutions, such as our vending and e-Commerce platforms, that will reduce their costs, save time, and increase productivity. Customers are increasingly turning to suppliers like MSC who can deliver these solutions, and we remain committed to the developments in technology and value added services that will build upon our leadership position. We are also focused on those initiatives, such as the co-location of our headquarters or our CSC as we call it, that will set the stage for efficient long-term growth. We are fortunate to have the financial resources and flexibility to achieve our goals."

Mr. Sandler concluded, "Looking ahead, we believe that the combination of digital information, e-Commerce, vending and supportive technology is clearly shifting the value equation toward those distributors with the ability to invest in these capabilities. Against this backdrop, we expect our investments will widen the gap with competitors and lock in share gains. While our growth investments may create some near-term headwinds, we expect those headwinds to abate over time and to position us for stronger growth and operating leverage in the long-term. We remain very excited about our future as we execute on our strategic plan."

Based on current market conditions, for the fiscal 2012 fourth quarter the Company expects net sales to be between \$630 million and \$642 million, and expects diluted earnings per share for the fourth quarter of fiscal 2012 to be between \$1.05 and \$1.09. Fiscal 2012 is a 53-week year for MSC and the Company's fiscal fourth quarter has an additional week. This guidance primarily reflects the additional week in the fourth quarter, projected average daily sales growth of 10.5%, typical seasonal patterns in sales and margins and investment programs.

The management of MSC will host a conference call today, at 11:00 a.m. Eastern Time, to review the Company's results for the fiscal 2012 third quarter, and to comment on current operations. The call may be accessed via the Internet on the home page of MSC's website located at: www.mscdirect.com. A replay of the conference call will be available on the Company's website through July 30, 2012.
